Work Experience

Full Stack Developer – Project-Based Work

📅 2023-Present

📍 Lahore

- Developed and deployed multiple **MERN stack applications** (SkillSwap, SchoolEase, Freelancing Hiring Platform).
- Designed REST APIs with Node.js & Express.js, integrated MongoDB, and implemented JWT authentication.
- Built responsive UIs with React.js and Tailwind CSS.
- Worked in Agile-style teamwork (code reviews, version control with GitHub)

Machine Learning Web Developer – PredictViz

📅 2025 - Present

📍 Lahore

- Built an AI-powered cricket score predictor combining Flask (Python ML) with a React.js frontend.
- Integrated real-time match data into a prediction model.
- Designed responsive dashboards for better user interaction.
- Improved prediction accuracy by optimizing data preprocessing.

Frontend Developer – Red Wings Cricket Website

📅 2025 - Present

📍 Lahore

- Designed and developed an official website for the Red Wings cricket team using React.js and Tailwind CSS.
- Created team profile pages, match highlights, and a feedback form.
- Ensured mobile-friendly and visually appealing UI.
- Deployed the site on Vercel for public access.

EDUCATION

Bachelor of Science
Software Engineering

University of Central Punjab

📅 2022-2026

📍 Johar Town, Lahore

SKILLS

- **Frontend:** React.js, Tailwind CSS, HTML5, CSS3, JavaScript
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Other:** REST APIs, JWT Authentication, Git & GitHub, Deployment
- **Languages:** English, Urdu, Punjabi

Activities

- 🏏 Cricket – Skilled hardball batsman, played for Red Wings Cricket Team. Scored 103 runs in a series decider. Active since 2019 in competitive cricket.
- 🌐 Traveling – Passionate about exploring new places and cultures, gaining fresh perspectives.
- 💻 Tech Exploration – Constantly learning new frameworks, experimenting with MERN, AI/ML, and React Native.
- 🤝 Collaboration – Interested in freelancing and outsourcing opportunities, working with international clients.

PROJECTS

◆ SkillSwap – [GitHub](#)

Tech: MERN Stack (MongoDB, Express.js, React.js, Node.js, Tailwind CSS)

- A skill exchange platform where providers and seekers can connect.
 - Features notifications for session updates, authentication, and a responsive UI.
-

◆ Gamified Habit Tracking – [GitHub](#)

Tech: Node.js, Express.js, MongoDB, JWT, React.js

- A gamified habit tracker that motivates users with streaks and rewards.
 - Secure login with JWT and habit progress tracking with MongoDB.
-

◆ Freelancing Hiring Platform – [GitHub](#)

Tech: MERN Stack

- A hiring platform to connect freelancers with clients.
 - Role-based authentication and job posting workflows.
-

◆ Event Management System – [GitHub](#)

Tech: Node.js, Express.js, MongoDB, React.js

- Event booking and management system.
 - CRUD operations for events and notifications for updates.
-

◆ PredictViz (AI-Powered T20 Score Predictor) – [GitHub](#)

Tech: React.js, Tailwind CSS, Flask (Python), Machine Learning, Axios

- An AI-powered cricket score prediction app.
 - Predicts T20 match scores in real-time using ML models.
-

◆ Red Wings Cricket Website –

Tech: React.js, Tailwind CSS, Vite

- Official website for the Red Wings cricket team.
 - Includes team profiles, match highlights, and a feedback form.
 - <https://redwings-sage.vercel.app/>
-

◆ SchoolEase (Learning Project) –

Tech: MERN Stack

- A school management system with CRUD operations for students, teachers, and classes.
- Includes authentication and role-based access
